Advanced Web Development

MEETING MINUTES

Project: Biconoir's Restaurant

Team: ByteClub

1. General Session Information

Field	Detail
Project	Biconoir's Restaurant
Date and Time	July 13, 2026, at 2:00 PM
Location	Virtual Session
Meeting Type	Prototype Presentation and Corrections Definition

2. Participants

The client and the members of the technology team responsible for software development participated in the meeting:

- Client: Ángel Roldan, owner of Biconoir's restaurant.
- Team ByteClub: Dylan Alvarado, David Andino, Jilmar Calderon.

3. Meeting Objectives

- Validate the overall product vision and frontend-backend integration.
- Review the current state of the platform at <https://biconoirs-web.duckdns.org>.
- Identify bugs and areas for improvement in User Experience (UX).
- Establish corrections and additional requirements requested by the client.

4. Topics Discussed and Agreements

4.1 Prototype Presentation and Detected Errors

The operational version of the webpage was presented to the client. While the system integration works correctly, issues were noted regarding client validation and menu flexibility.

4.2 New Requirements (Frontend & UX)

The client requested as a priority that the system allow logged-in customers to customize their dishes (remove ingredients) to prevent allergy issues. Additionally, the login form needs to be modified to allow flexible phone number entry without forcing the '+593' format. Finally, it was agreed to add the physical locations of the restaurants and include contact information in the footer.

5. Corrections

Action / Task	Responsible Party	Deadline
Enable the option for logged-in customers to remove items/ingredients from the dish upon selection (e.g., for allergies).	Technology Team	07/20/2026
Modify the phone input validation in the login section (remove the strict requirement to input '+593').	Technology Team	07/18/2026
Add a section with the geographic location of the branches.	Technology Team	07/22/2026
Include contact information in the footer of the site.	Technology Team	07/18/2026

I hereby submit the corrections that need to be made to the prototype of my restaurant's website.

A handwritten signature in black ink, appearing to read "Angelina", is written diagonally across a light gray rectangular background.
